START / STOP	Starts or stops the counting process.

CONTROL PANEL FUNCTIONS

①	+	Increases batch quantity.
②	BAT	Selects preset batch quantities.
③	–	Decreases batch quantity.
④	SET	Opens batch setting mode.
⑤	C	Clears display and resets data.
⑥	REPORT	Shows denomination totals.
⑦	START / STOP	Starts or stops counting.

PERFORMANCE

- Up to 270 Coins/Min
- Max. 500 Coins Hopper Capacity
- 50–300 Coins Drawer Capacity
- Batch Setting 0–999

RELIABILITY

- Accurate Coin Sorting
- Durable Compact Body
- Stable Operation
- Easy Maintenance

EFFICIENCY

- Sort, Report & Batch Modes
- LED Display
- User-Friendly Controls
- Low Power Consumption

IDEAL FOR

Banks | Exchange Houses | Cash Centers | Retail Stores | Supermarkets | Offices

DETECTION & SORTING FEATURES

- Accurate Coin Sorting
- Denomination Recognition
- Error Indication
- Jam Detection

ADVANCED TECHNOLOGY

- High Speed Sorting System
- Stable Sorting Mechanism
- Batch Preset Control
- User-Friendly Operation

PERFORMANCE & RELIABILITY

- Counting Speed: Up to 270 Coins/Min
- Hopper Capacity: Max. 500 Coins
- Coin Drawer Capacity: 50–300 Coins
- Durable, Stable & Accurate
